

LAST TIME... OUR ANALYST HAD HIS HANDS FULL WITH DATA GONE WILD.

GEEZ, HOW AM I SUPPOSED TO GET DATA FROM SQL SERVER AND ORACLE IN THE SAME PLACE?

KID, YOU WANT THE COFFEE OR NOT?

HUH?

CLIP O' JOE, YOU IN OR OUT, KID?

TOAD? I JUST HAD THE CRAZIEST DREAM... I HAD DATA FROM SQL SERVER AND FROM ORACLE. BUT I COULDN'T GET THEM IN ONE PLACE AT THE SAME TIME.

TOAD FOR DATA ANALYST DOES MORE THAN JUST SHOW YOU DATA, KID...

GOOD THING THESE QUERIES WILL RUN FASTER... BUT I WONDER HOW THEY'VE BEEN COMPARING AND SYNCING DATA AROUND HERE. THIS COULD GET UGLY.

WILL OUR HEROES STUMBLE OVER DATA COMPARISON?

IS AN OLD FOE WAITING IN THE SHADOWS TO STRIKE AGAIN?

DON'T MISS THE NEXT EXCITING CHAPTER:  
**Out Of Sync**
